ACCAN OBJECTIVES

1. to be a peak body in Australia representing the interests of consumers in relation to communications and telecommunications issues;
2. to promote the telecommunications consumer objectives of accessibility, affordability and availability to all consumers;
3. to promote the development of Australian information and communications technology resources;
4. to develop a strong, coordinated voice for consumers and to represent and advocate on behalf of consumers to Government, regulators and the telecommunications industry;
5. to undertake research, policy development and education on consumer telecommunications issues;
6. to facilitate access to and dissemination of information to consumers, consumer representatives and consumer organisations;
7. to advocate on behalf of consumers on telecommunications laws affecting consumers, law reform, policy development and in relation to industry practices;
8. to participate in regulatory and co-regulatory activities; and
9. to contribute to the development of Government telecommunications policy.
